## STEP

1. Open all packaging and organise all poles into number groups. Each pole will have a number sticker. Matching the parts list above and ensure straight joint fittings are aligned and locked in position.
2. Ideally two people should remove net from bag, unravel and open fully before fitting.
3. To connect the poles together as per above photo's number shown. Put the net over the frame with the red tabs (step1) in the top left/right hand corner when assemble.
4. The seam of the net should follow the frame supports. Secure the net to the frame using the plastic hook ensuring you space them out evenly over the whole frame (step 2).
5. Position the assembled frame and fix to the ground using the 10 ground pegs. Position around the frame base (step 3).

### CAUTION:

Check regularly that pegs are secure. Loose pegs may cause injury. Care should be taken when using a mallet as misuse may cause injury.
